

Poisoned Speed

„Live And Greasy“ (27.09.2021)

Poisoned Speed have been around for almost a year now. In that short period of time they've released three demos and a compilation called "Quick And Dirty". In August 2021 they played their first live shows.

To celebrate Poisoned Speed's first anniversary Barhill Records will release a live EP called "Live And Greasy". Recorded at Wild Boar War's Festival III in Frankfurt and mixed and mastered by David Saia, the EP contains 4 tracks from "Quick And Dirty" and a brand new song called "Knife Gang".

Rough and raw, no overdubs, no bullshit. An authentic take of their second gig, for those who couldn't be there. A celebration of the return of live shows and Rock'n'Roll itself.

Release date will be September 27th 2021, exactly one year after they dropped their first demo. It's gonna be a digital release on Bandcamp and all other streaming services, once again handled by Barhill Records. A limited cassette tape release in collaboration with Unchained Tapes is in the works, more info about the exact release date will follow soon.

Set your alarms and get ready, Poisoned Speed is all you need. More than ever!

For fans of Motörhead, Venom, Midnight

Formats: Digital
